

## **Product Listing Process**

- **Submit Product** Data File
- **File Review**

system.

- **Program Analysis** and Revision
- **Data is Uploaded** to the Database
- **Data goes Live** on Biocompare
- Feedback

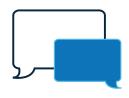

We make sure your file

is compatible with our

Submit your product data file to our secure Dropbox account. Comma separated (.csv), tab delimited (.tab), .xls, and .xlsx files are accepted.

- We run your file through a program that addresses formatting, categorization, specifications, and normalization.
- There are QC protocols for each step that assess accuracy, formatting, and process completeness.
- You are notified when your listings are live and searchable.
- Let us know if you see any problems.
- We will update our programs to resolve them permanently.

Let us know the scope and details of the update.

We create and maintain a data parsing program that is tailored to your data set.
